# PATH TO RIDE

P2R is the abbreviation of "PATH TO RIDE", just like the spirit, Our goal is to make your ride more comfortable. We develop a series of innovative, multi-functional, ergonomic and high-quality riding gears. Not only short trip in weekend, or long distance unknown exploration, there is always a suitable, intimate and fashion P2R riding gears for you.

## P2R STORY

Our history is from 2007 when we started to develop and produce first bike helmets to our European customer. Over 10 years of experience, passion and devotion, we have produced millions of sports helmets for our customers from Europe, US, Japan, Australia and South America. With the experience in design, development, and manufacturing, we created P2R brand on May of 2019 with a new journey of exploration.

## OUR TEAM

The designers who are in pursuit of perfectiveness, rigorous engineers and riders who helps us test products and propose some suggestions, are composed of our whole team. We can say that sports constitutes an important part of our life.

Our mission is to maintain a perfect balance between technological excellence, functionality and attractive design in our products.

# P2R TEAM

*Have you ever thought be a cycling racer and don't you know the way, how to fulfil your dream ? P2R Bike Team is made up of a group of people who love bike riding. Join us and we will be proud to support and sponsor you as same as our P2R bike riders, who achieved nice awards in the Slovak, Europe and even World Championships Worldwide.*

# HELMETS

Wear the safety helmet all the time whenever and wherever you are and riding your bike. Phrase only? Not in fact, because bikes are much more faster than in the past, thanks new innovations in cycling industry and ebikes, which popularity grows really fast, and there are lots of cyclist accidents happen everyday. It can't happen, because you are taking care about yourself? Statistics say, that more accidents are caused by cars in the city or countryside roads, than in the forests or Mountains. But it's very strange, that just people are riding bike in the huge traffic don't wear safety helmet, because they think, it's not cool enough. But it's not truth. Just check our P2R helmet category and will find our helmets cool, with nice shape, innovations and 100% protection all the time. Additionally, remember, helmet can save your life and it protects your health when it's adjusted properly only! Pls, adjust the position onto head before you will ride bike every time.

# TECHNOLOGIES

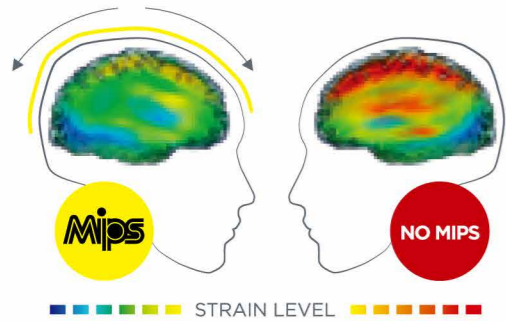

**P2R HEAD PROTECTION**

# BRAIN PROTECTION SYSTEM

- MIPS is a brain protection system
- Rotational motion can cause brain injuries
- The low friction layer allows a sliding motion of 10-15mm, in all directions, reducing the rotational motion transmitted to the brain during impact
- MIPS adds protection

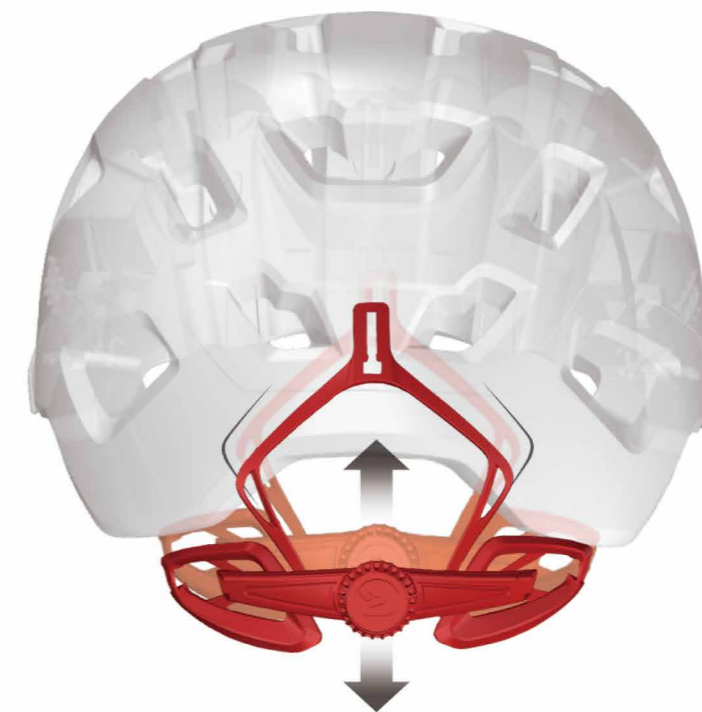

## VENTILATION SYSTEM

Superb ventilation with big vents and deep air stream channels.

## IN-MOULD TECHNOLOGIES

In-mould technologies structure for durable EPS inner layer and PC outer shell.

## ADJUSTING SYSTEM

Smooth and flexible dial ring system, can be easily operated even with one hand and with gloves.

### COOLMAX PADDING

Washable antibacterial padding, keep you dry and clean.

### SAFETY LIGHT

Removable LED safety light in the rear part, with three lighting modes.

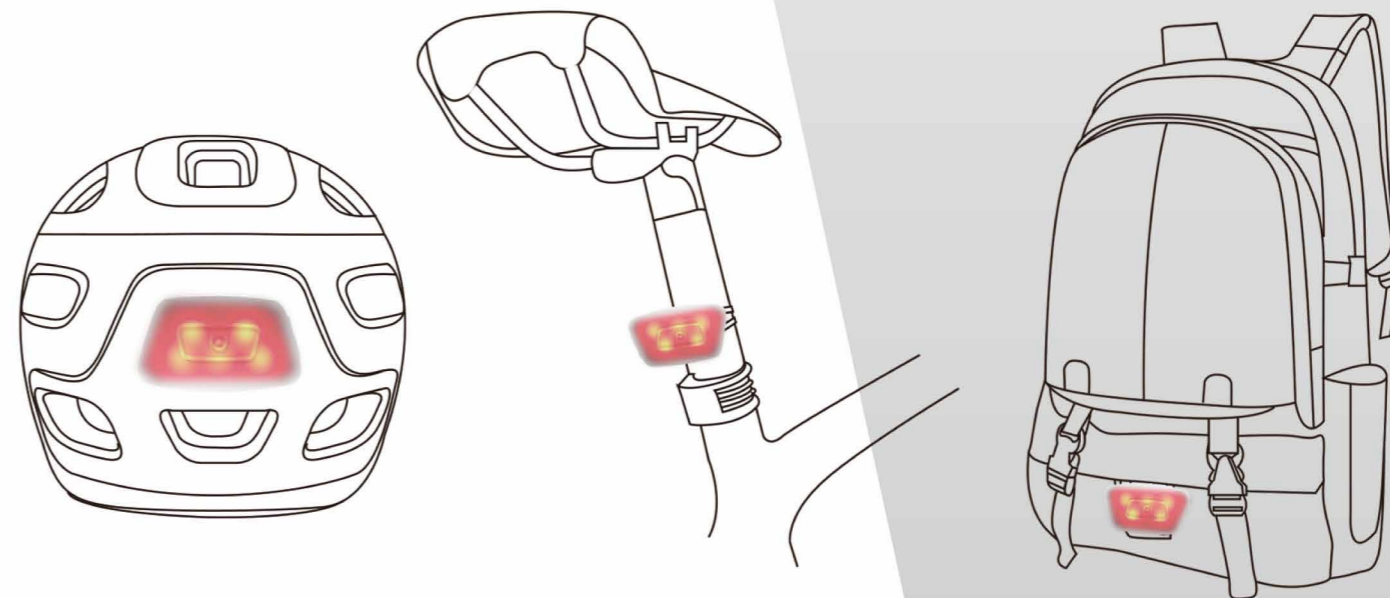

### FIDLOCK MAGNET BUCKLE

Fidlock magnet buckle can be opened with ease by sliding laterally using just two fingers.

### ADJUSTABLE BUCKLE

changing the strap length more easily when be opened; steady buckle position when be closed.

### MULTIPURPOSE LIGHT

Detachable multipurpose LED light, can be used elsewhere.

# PUMPS

Did you repair or replace bike tube ever? Thus you know, how important is nice shaped and well efficient mini pump.

When we were preparing our P2R mini pump collection, dozens of pieces were tested and we finally chose the best models for you.

## AIRCORE 10 SP

Light weight plastic minipump with extending hose hidden in the barrel and protected with the plastic dust cap protects against the dust. The maximum pressure 6 BAR/90 PSI. Reversible CNC machining pump's head suitable for valves AV and FV.

- Weight: 85 g
- Barrel length: 202 mm
- Barrel diameter: 21 mm
- Maximum pressure: 90psi/6 bar

## AIRCORE 20 SP

What makes AIRLOAD 20 SP different to other mini pumps. With an intelligent pump head, it works great for both, Schrader and Presta valves automatically.

- Weight: 176g
- Length: 255 mm
- Barrel diameter: 25 mm
- Maximum pressure: 100psi/7 bar

## AIRCORE 30 SP

Light weight aluminum alloy minipump with extending hose hidden in the barrel. Patented Dual head protected with the plastic dust cap protects against the dust Made by CNC technology. Patented auto switching dual head fits Schrader /Presta.

- Weight: 137g
- Length: 235 mm
- Barrel diameter: 24 mm
- Maximum pressure: 130psi/9 bar

## AIRLOAD 30 SPD

Ergonomic alloy mini pump  
New dual head for FV (Presta) / AV (Schraeder)/ DV (Dunlop) valves Max. Pressure: 116psi/8 bar  
Ergonomic, pinch-free T-handle.

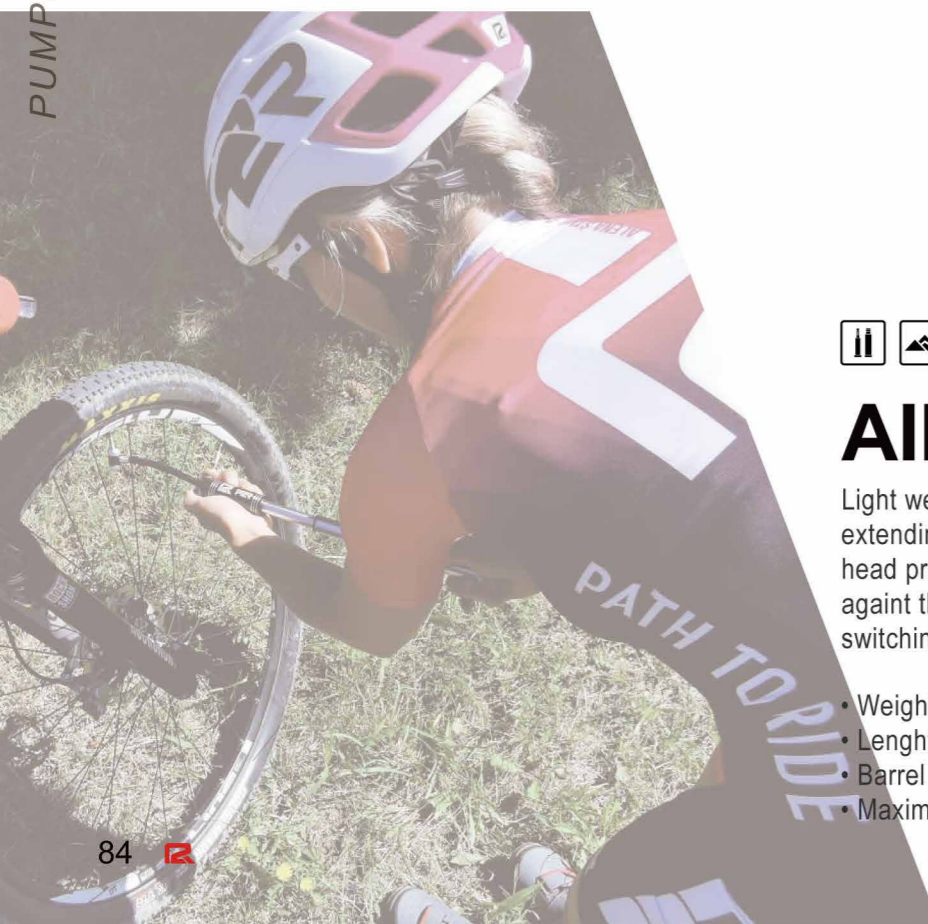

- Weight: 137.5g
- Total length: 253 mm
- Barrel diameter: 21 mm
- Maximum pressure: 116psi/8 bar

## AIRCORE 50 SP

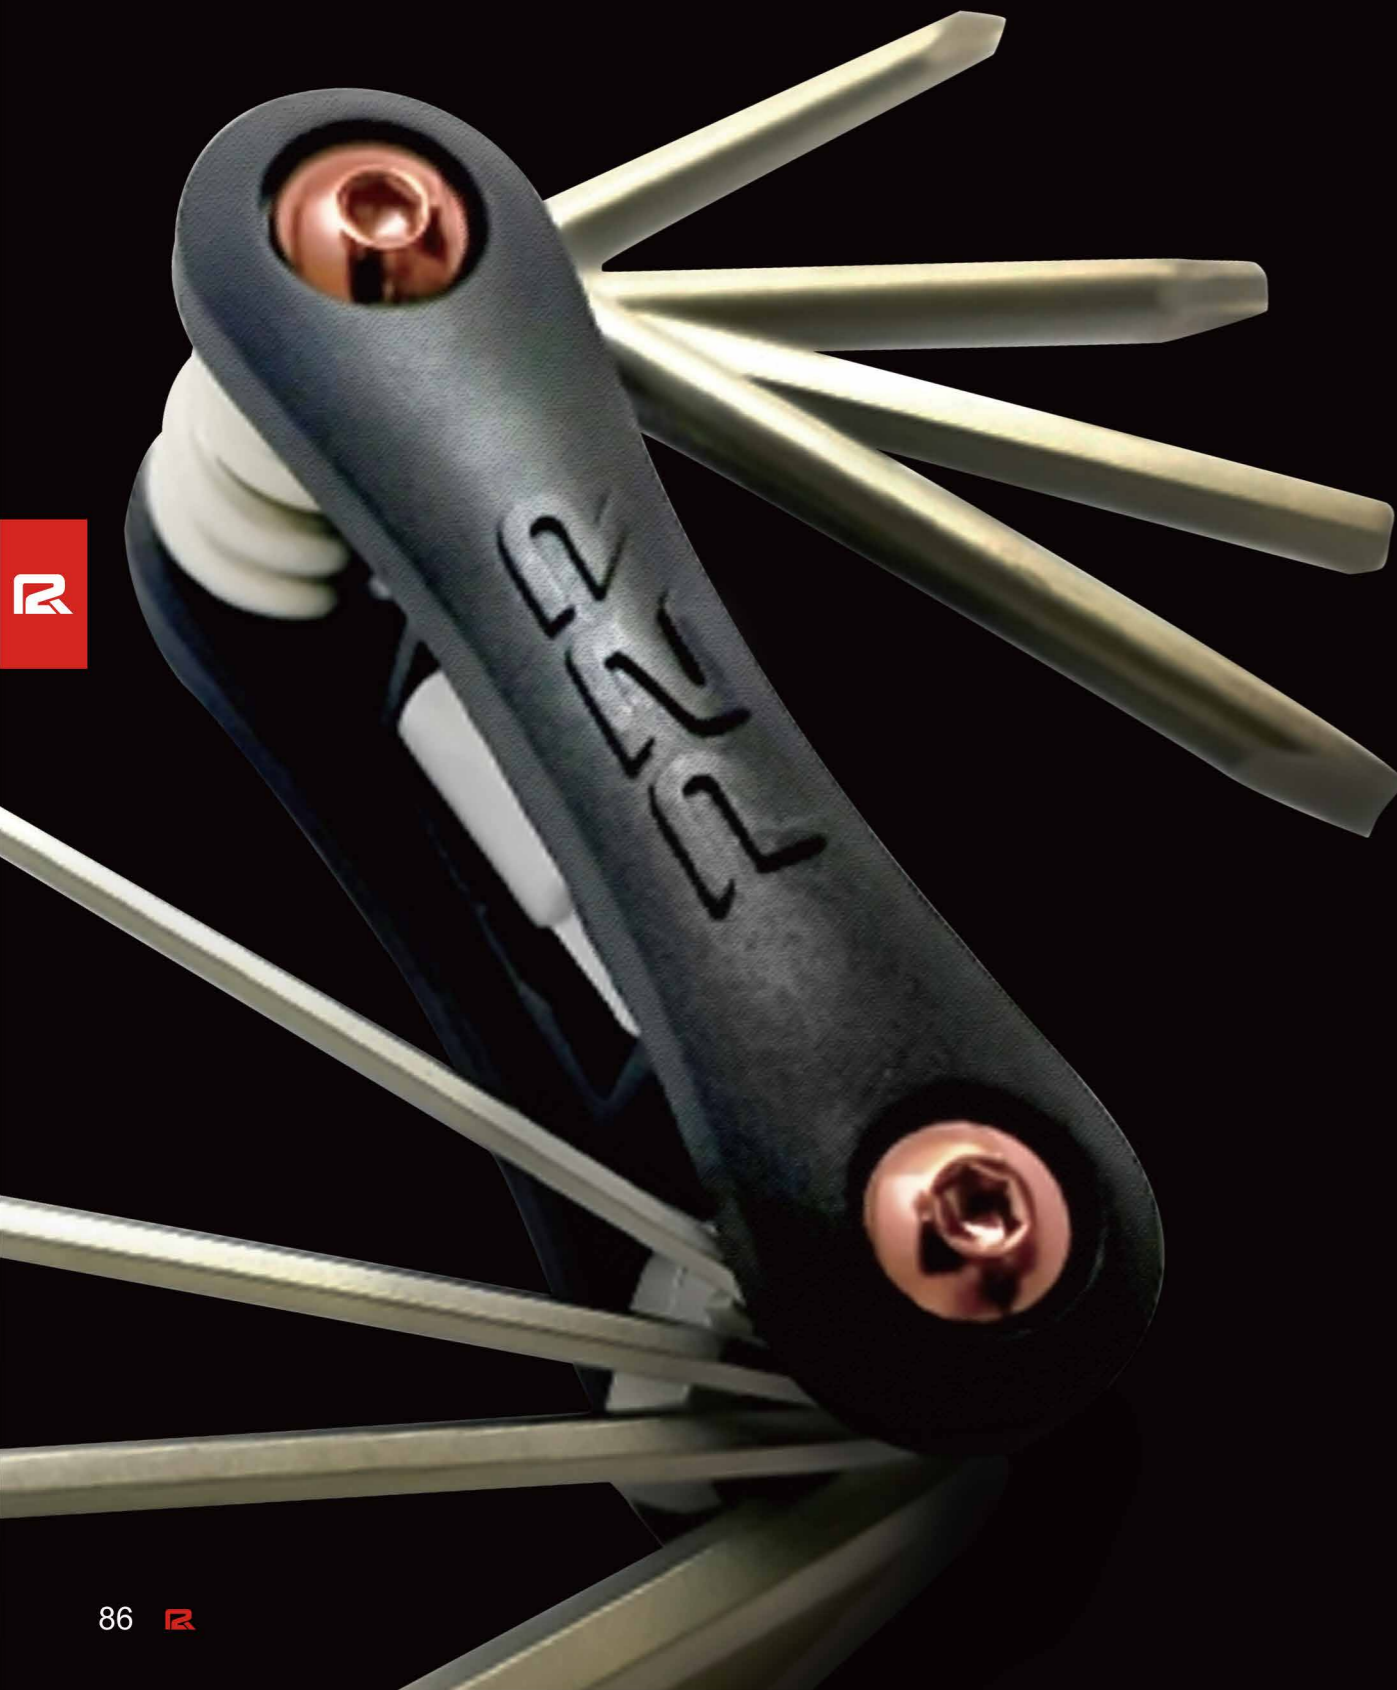

Lightweight, compact size, aluminum alloy minipump with extending hose hidden in the barrel. Dust plastic cap protects against the dust. CNC machining barrel and handle. The maximum pressure 9 BAR/130 PSI.

- Weight: 150g
- Length: 208 mm
- Barrel diameter: 25 mm
- Maximum pressure: 130psi/9 bar

# TOOLS

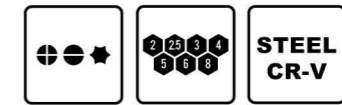

Can you please help me solve the problem with my bike?  
 You may hear this question from someone during your trip on countryside roads, forest trails or in the Mountains paths. Just choose the right cycling tool model from our P2R range and you could help everyone who may need your help easily.

## MANIT 10

Compact size 10-functions mini bicycle tool made of Chrome-Vanadium steel (Cr-V). Light weight ergonomically shaped side plates with 2D P2R in-moulded logo for better and safer grip.

- Philips head screwdriver PH2- Flat head screwdriver No. 5- T25 torx
- 2mm hex - 2,5mm hex - 3mm hex- 4mm hex
- 5mm hex - 6mm hex - 8mm hex

## MANIT 11

Compact size 11-functions mini bicycle tool made of Chrome-Vanadium steel (Cr-V). Light weight and ergonomically shaped side parts for better and safer grip.

- Philips head screwdriver PH2- Flat head screwdriver No. 5- T25 torx
- 2mm hex - 2,5mm hex - 3mm hex- 4mm hex
- 5mm hex - 6mm hex - 8mm hex
- chain rivet extractor for chain 7 - 11speeds

## MANIT 16

Compact size 16-functions mini bicycle tool made of Chrome-Vanadium steel (Cr-V). Light weight and ergonomically shaped side plates with Laser printing P2R logo for better and safer grip and easy carrying wherever you want, such as in a backpack, saddle bag or Jersey pocket.

- Philips head screwdriver PH2- Flat head screwdriver No. 5- T25 torx
- 2mm hex - 3mm hex - 4mm hex - 5mm hex
- 6mm hex - 8mm hex
- chain rivet extractor for chain 7 - 11speeds- Spoke wrench: 13 (3,23)/ 14 (3,32)/ 15 (3,47)/ 16 (3,96)/ MAVIC spline

# TECHNIQUE *Helmet*

## In-mould

In-mould structure for durable fusion of EPS inner layer and polycarbonate outer shell, the construction allows light weight, closable air vents and channels, and exceptional wearing comfort.

## Hard shell

The injection molded outer shell and EPS inner shell create a highly effective safety combination, the complex construction allows perfectly placed, closable air vents and channels, and exceptional wearing comfort.

## Light Weight

Thanks to the in-mould technology and cleverly designed vents system, the helmet reach a very light weight which provide the maximal safety protection and comfortable wear.

## Anti-insect net

The integrated inner padding with anti-insect net provide more protection.

## Ventilation system

Cleverly designed ventilation channels draw in fresh air and keep you cool.
