

Endurance 7TR

New TR model with innovative construction takes the cycling experience to a brand new level.

Hookless compatible.

Excellent stability thanks to new construction even at low pressures, perfect adhesion even in wet conditions thanks to the combination of NANOSILICA and carbon black. A combination of comfort with low rolling resistance makes this model - as the name suggests - essential for the challenges of endurance tracks.

MODEL	TYPE	SIZE	WEIGHT	PREASSURE	TPI COUNT	USE
Endurance 7TR 28	Tubeless tyres	28-622 700X28C	295g	3.0 - 6.5 bar (45-95 p.s.i.)	315/270	Road Cycling
